ABOUT WENGER & SWISSGEAR

Since 1908, the year Wenger was chosen as a supplier of the Standard Issue knife to the Swiss Army, Wenger engineers have served as the vanguard of knife technology, pioneering the evolution of knives as precision multi-tools. Exclusive patented features reflect Wenger's talent for innovation. Additionally, Wenger is the only Swiss cutler to be granted the rights to use the prestigious crossbow which is proudly engraved on all knife blades. This symbol is a label of quality; it represents a standard of excellence established by an elite association of Swiss Manufacturers and it only appears on a select group of Swiss products.

And while Wenger has been vigilant and ever-ready to meet new challenges with new solutions, we also have remained steadfast in our dedication to quality and the integrity of Wenger product. This is best exemplified by our watches as well as travel, outdoor and business gear, all of which have been designed and crafted with the same inspiration and dedication that was devoted to the Swiss Army knife. It is truly a rare combination, integrity and innovation, that enhances the design of every product worthy of Wenger's distinctive Swiss cross.

Wenger products are a prestige collection of classically designed, innovative, Swiss-inspired business products worthy of the Wenger name.
